ROCKETS.—Few, perhaps, of our readers are fully sensible of the dangerous character of this much admired species of fire works, when improperly handled by unthinking persons—as is frequently the case.—When the rocket is up and off, and its brilliant train and fires expire midst shouts of admiration, it is thought to be all exploded and gone. But not so. The most deadly results may follow. The "stick," headed by the empty shell of the rocket, is descending with fearful force, and woe be to any hapless spectator on whom it falls.

To discharge rockets so that the sticks may fall among the spectators is murderous, as in a large crowd some one is almost certain to suffer. And yet rockets are sometimes thus fired, out of mere thoughtfulness or stupidity. Any accident which discharges a rocket in a crowd before being pointed upwards, is almost certain to do serious injury, and a careful, intelligent person only, should be entrusted with these dangerous missives.

We publish to-day, in another column, an account of a deadly and most melancholy accident, which occurred in Chicago on the Fourth, in consequence of the discharge of a rocket in a slanting direction and before it was pointed upwards. The writer of this attended the display of fire works at the junction of Cumberland st, and Fulton Avenue, Brooklyn, on the evening of the Fourth, and a rocket stick came down within a few feet of him. He was watching its course, and moved his position to avoid it. That rocket and many others were fired carelessly from the immediate vicinity.

What a pity that some one of our inventive Yankee countrymen does not invent a rocket and stick which would explode to fragment, when its height is attained. If such a rocket were produced, then we should prohibit, by law, the use of the present dangerous kind.—*N. Y. Sun.*

On the Outside of this Issue.—*First Page*—Rockets.

☞ Efforts are now being made in the large mercantile cities of this country, to improve the condition of our sailors, by the abolition of the practice of paying wages in advance. This is indeed one step toward the relief of a class of men whose condition, sufferings, and wrongs call louder for the sympathies of the benevolent than any other. The sailor is not only the slave of his landlord, but his slavery is degraded by a voluntary acquiescence. The landlord controls his action, regulates his wages, ships him on board of this vessel or that vessel, takes charge of his earnings, and in advance, his future wages; and in return, supplies him with grog, and ministers to his reckless and dissipative propensities. Selfinterest, in the absence of benevolence induces the slave holder to take care of his african slave, and the law compels him to provide for the infirmities of his old age, but Jack has no such protection from his master, and no reliance for his old age, but that miserable pittance vouchsafed to him by the general government of his country.

Under the existing relations of the sailor to his landlord, the former looses his self respect, and his ambition for promotion, and contents himself with being the degraded and defrauded victim of avarace and despotism. The more he is in debt, the more object is his servitude. The landlords are aware of this and are making great efforts to prevent the present measures of reform from being carried into effect. In New York they have formed themselves into a secret association, under a formal constitution and by laws, and it is a serious question to the cause of humanity, whether their union of action will not defeat the ends of this humane undertaking. There is also another cause for the degradation of our sailors, and which is chargeable to ship owners, to wit:—the neglect to provide in all cases comfortable accomodations on ship board.

At present it is too commonly the case that sailors are crowded into contracted and unwholesome quarters, such as ship owners would not think of providing for their beasts; their victuals are served up to them in a small wooden pail or "kid" and their fingers and teeth perform the office of knife and fork. Now what else can we expect than that boys thus educated, and men thus inured, should loose their self respect, and descend to a condition but little superior to the brute. If you would make a man respect himself shew him by your acts that he is worthy of your respect. Besides the injustice done to sailors, by not providing good quarters on ship board, the ship owner is absolutely the loser. The sickness or death of a sailor while on duty can not but be a loss to him, and probably one of the deaths which occur among sailors on ship board may be directly or indirectly traced to the want of accomodations suitable to the climates to which they are exposed.

The Virginia papers state that hail stones weighing six pounds, and about one hundred inches, fell in Fredericksburg, during a storm on July 1st. Much damage was done to the crops. In some places in the region of the Blue Ridge mountains, on the day afterwards, the hail was four feet deep!

Prof. Waters, an itinerant professor of music, now in the vicinity of Palmer, has drawn the woman and her $25,000 in "Perham's Gift Enterprise." Twenty-five thousand is not too large a figure to accompany a woman "won in a raffle."

It is a penitentiary offence in Ohio to use "strychnine" in the manufacture of whisky. A large manufacturing house in that State sent 200 barrels to Cincinnati, and sufficient poison was found in one barrel to kill thirty men. The liquor was returned and the manufacturer suffered to run at large.

The Yacht "America."—The once famous yacht "America," whose victory over the entire yacht squadron of England, off the Isle of Wight, in the memorable summer of 1851, testified so completely to our superiority in the construction of vessels of this kind, has experienced a melancholy and unmerited fate, as we learn from the following extract from the London *Times*:

"While the monster American frigate (Niagara) is riding so proudly at Tilbury Fort, there lies, almost within musket shot of her pennant, in a ship builder's yard, and we sincerely regret to say, completely destroyed, all but the hull, the beautiful yacht America, that so delighted our yachtmen in the Solent."

The New York Mirror.—The New York Evening Mirror, is hereafter to be conducted by "The Mirror Printing and Publishing Company," organized under the law passed by the Legislature of that State at its last session. This arrangement is intended to enlarge its sphere of action, and to give greater effects to its exertions. Its present editorial corps will be strengthened by the aid of Mr. De Witt Bloodgood, who will have the principal charge of its columns. J. F. Ropes, Esq., one of the proprietors of the New York Atlas, whose business talents are of the first order, will become the manager of the affairs of the Company. The present editors will remain at their posts.—*Boston Journal.*

LOCAL NEWS.

"Porter's Spirit of the Times" is a newspaper published in New York, with particular reference to sporting intelligence, though general literature, agricultural matters, and useful family items are represented in its columns. This journal has been ably conducted from the day of its birth, and now boasts an extensive circulation. In consequence of this fact, its editors, as they state, have been frequently and clamorously desired, both by residents of New York, and of other places, to execute commissions for the purchase of all sorts of articles; and they, therefore, have connected with their newspaper business a "Purchasing Bureau," under the immediate direction of one of the firm, assisted by accomplished experts. In this manner they design to furnish "any article in the world," upon the most liberal and expeditious terms. From their circulars it would seem as though nothing was too trifling to engage their attention, nor so rare as to baffle their research. An undertaking like this deserves remark at least.—Immense benefits may be made to accrue to society from such a design, carried out in a faithful and comprehensive spirit. See advertisement in another place.

☞ Prof. Pusey, a gentlemen of extended reputation as an aeronaut, is desirous of affording the citizens of Newport the pleasure of witnessing a balloon ascension. He has lately made several ascents in different parts of New England: and among them is a very successful one which occurred in New Bedford on Saturday last. If sufficient encouragement be offered to Prof. Pusey, who intends visiting this city in a few days for the purpose of soliciting a subscription to his enterprise, there will be nothing in the way of our gratification.

A balloon ascension has always held a rank among the most popular exhibitions of modern times; and when we consider the probable importance of experiments of this nature, they cannot be too favorably regarded. Improvements in aerial navigation have been very gradual; but, at last, we may call them decided and promising. We do not doubt but that there are a large number of residents in Newport, who never beheld a spectacle of such a kind, and we are thus led to hope that Prof. Pusey's proposal may meet a prompt response.

☞ From neighboring cities we have been constantly apprised within a few days of oppresive heat. The long season of cloudy and chilly weather has at last been succeeded by a reverse of temperature. In New York the range of the thermometer on Sunday and Monday, very nearly approached 100°: and in the less populous places in our vicinity the standard has been comparatively high. In Newport, however the Sea breeze prevails so completely as to preclude the possibility of discomfort from such a source. The winds from the South West, arising early in the forenoon dissipate annoyance before their genial and invigorating influence. Under these favorable circumstances, our visitors are becoming daily more and more numerous, the most satisfactory confirmation, with regard to the prosperity of Newport as a watering place, is necessarily afforded.

The Redwood Library.—By virtue of a resolution adopted by the Directors at a recent meeting, this Institution is now open daily from ten o'clock A. M. until two o'clock P. M.

Although notice of this intended arrangement was given in a previous number of your paper, it has occurred to me that possibly some of your readers may not have seen the advertisement. I therefore avail myself of this mode of inviting public attention to a fact shewing an earnest desire on the part of the Directors to render this time honored Institution more useful both to strangers and citizens. Censor.

☞ We noticed laying in our harbor yesterday the yacht Widgeon bearing the broad pennant of Com. Edgar, who has been appointed Commodore of the yacht squadron, vice, Com. Stevens, deceased. We notice that the yachts are all carrying their flags at half-mast, and understand that it is a rule of the Club, to wear their flags thus for thirty days after the decease of a Commodore.

☞ We would call the attention of our citizens to the Ladies' Fair at Masonic Hall, which is given by the Ladies of the Central Baptist Church. See advertisement in another column.

☞ In England it is estimated that the product of the *dryest* soil is doubled by thorough underground drainage. If this be so, how vastly beneficial must the system be when applied to heavy clay soil like much or most of the land on this Island.

Observer.

☞ We learn that Wm. H. Smith, Esq., of New York, has taken Wm Smith's house in Kay street.

☞ The walls of the rotunda at Washington, have been discovered to be too weak to bear the new iron dome. Its construction will therefore be suspended, and the immense expenditure already incurred will be lost.

☞ The Cunningham family are still residing at No. 31 Bond street, and none of them have left the city since the trial of Mrs. Cunningham. They are living very retired, and receive but few visitors. Eckel never calls there, and Snodgrass very seldom.

GENERAL NEWS.

☞ The following particulars of the New York Riots we clip from the Tribune:

Further Particulars of the Seventeenth Ward Riot.

Up to 1 o'clock to-day all was quiet in the Seventeenth Ward. There were no gatherings of the Germans, with the exception of private meetings at Eustachis Volk's Theatre in Fourth street, rear of Avenue A. Here the Germans were making arrangements for a meeting to-night. During the excitement yesterday our reporter understood that the gun store in Houston street, near Orchard, was besieged by a large party of Germans, who were obtaining ammunition from the storekeeper on the order of at present unknown parties. The storekeeper was assured that the money, on presentaton of the orders, would be forthcoming, partly through fear that they would sack the store, he delivered to them arms and ammunition.

The place is owned by a German. Our reporter found much difficulty in obtaining facts as he passed through the Ward, in consequence of the numerous spies who watched his movements. It is hardly safe for a person to pass through some of the streets even in broad daylight, for if he should be suspected of having any connection with the police he would be instantly set upon and severely beaten. Numbers of the old police are constantly patrolling the Ward without any discoverable object. Their presence seems only to incite the angry feeling of the population more against the new police, and this effect is looked upon by some of them with ill-concealed satisfaction. Between the German and Irish population of the Ward an old feud is still in existence, and it is supposed that the present state of affairs may bring them in deadly conflict. The military are ordered out again to-night. Their force will consist of the 7th, 8th and 71st Regiments.

The Second-Avenue Riot.

Inquisition on the Body of Miller.

Yesterday afternoon Coroner Perry, after much trouble, impanneled a Jury for the purpose of holding an inquest on the remains of John Miller, the German who was shot during the riot of Sunday night. The deceased lived at No. 29 Avenue A, and the German population of that vicinity, having got it into their heads that he was shot by the police, were greatly enraged against the Metropolitans. They even went so far as to say that Coroner Perry should not hold an inquest on the remains of their unfortunate countryman. But the worthy Coroner appeased the wrath of the infuriated mob by making a mild and effective speech to them, which convinced them that he was not so bad a man after all. They interposed no further objections to his official duties, and Coroner Perry impanneled the following named gentlemen to act as Jurors: A. G. Dunn, Francis Ruppert, Isaiah Grillig, J. A. Frertas, Francis Tremonger, Terse Peck, Charles Whalen. The taking of testimony in the case, owing to the lateness of the hour when the Jury was procured, was adjourned till 8 o'clock this morning, when it will be proceeded with.

Seguine's Point was again quiet and orderly during Sunday night and yesterday.—Additional preparations are being made by the Police to meet the enemy should they come again, but it is thought that their ill-success on Saturday night will discourage the oystermen from an immediate renewal of their attack. A report containing additional particulars will be found elsewhere.

Quarrel Over a Corpse.—A disgraceful quarrel occurred in Chelsea on Sunday morning, over the dead body of a child.—The father of the child, Thomas Sharkey, wished the city to bury it, but a relation named Edward Harrigan, objected, and offered to contribute the expenses of the funeral. To this Sharkey objected, and getting possession of a broad-axe, retreated to a room where the corpse was lying, and locking the door, threatened to kill any one who dared to venture near him. The door was broken open, and in entering, Harrigan received a blow from the axe which inflicted a gash on the right side of his head nearly three inches long. Sharkey fled, but was arrested and taken before the police Court in Chelsea, and held in $2000 bonds for trial. The injured man was sent to the Hospital where he is likely to recover.

Taking Out an Eye to Mend It.—The Leipsic Journal of Literature, Science and Art, publishes an account of the wonderful discoveries of Dr. Graeff in diseases of the eye, and the wonderful cures he performs. He has found the ball of the eye to be transparent, and by a curious instrument examines minutely the interior, takes it out and performs any necessary surgical operation, and replaces it without injury to its appearance or vision. A young girl had long been afflicted with the most excruciating pain in the left eye, the cause of which the most learned could not understand. Dr. Graeff found in the centre of the ball a little worm, which he removed, and restored the poor creature immediately to health and perfect sight. His office is thronged by the poor, praying for relief. One is almost reminded of the miracles of the Son of Man, in reading the cures he makes.

Grasshoppers in Minnesota.—The region around Monticello is literally alive with grasshoppers. Though not yet half grown, they are already doing immense damage, and unless they speedily emigrate, must devour every green thing in Wright county. Mr. Ferguson, a farmer on Minnesota Lake, says that in five days the grasshoppers have destroyed twelve acres of wheat—not a single blade can be seen on the whole field.—Mr. Bradley of Monticello says that a wheat field of twenty acres he saw on Saturday in excellent condition, looked, on repassing it on Monday following, as though it had never had a crop on it—not a blade was to be seen.—*St. Anthony's Express.*

Fire Crackers Rendered Useful.—These Chinese explosives, for which no useful service greater than producing noise on the celebration of the Fourth of July have heretofore been discovered, have at last been applied to practical account. In some of the New England States caterpillars are destroyed with them. The way is to place one on the end of a split pole, thrust it into the nest, and knock them all to flinders. It will take sometimes two or three crackers to demolish a large nest. Enough for small collections a single explosion is sufficient. The boys don't consider this work, but go at it with a gusto.—*Newark Advertiser.*

☞ Col. Fremont is quite ill at the Brevoort House, in New York.

General Paez and the Filibusters.—We published yesterday an article, based upon our correspondence from Washington and Venezuela, and on information derived from other sources, in reference to a contemplated fillibuster invasion of Venezuela, under the auspices of ex-President Paez, now an exile in this city. Several of the personal friends of this distinguished patriot have assured us that, at least as to a portion of the statements made, our information was not correct. They deny that General Paez has any personal or political connection whatever with Walker or with Walker's political or personal friends, and deny that he has any knowledge whatever of the conferences recently held here with Walker, at which it was intimated the invasion of Venezuela was discussed.

It has also been suggested by others to us that these rumors of contemplated fillbuster descents on Venezuela are not improbably got up by President Monagas himself, that he may have the more excuse for concentrating power in his own hands, and holding the reins of government with a tighter grasp. To give color to these rumors some of his agents here might possibly have entered into such a contract as that spoken of in the article in question. The friends of General Paez, at all events, declare that so far from his (Paez) having leagued himself in any way with Walker or other American fillibusters, the very idea of his doing so would be fatal to his popularity at home. In no case, they say, would the General seek the assistance of Walker, as such connection would be ruinous to any South American cause.—*N. Y. Herald.*

An Irish woman called at a grocer's the other day, and asked for a quart of vinegar. It was measured out, and she put it in a gallon jug. She then asked for another quart to be put in the same vessel. "And why not ask for a half a gallon, and have done with it?" impatiently asked the grocer. "Och! bless your little soul, isn't it for two that I want it?"

SPECIAL NOTICES.

ALPINE HAIR BALM

FOR

Restoring Gray Hair to Its Original Color.

Warranted to cure Baldness, Scurf Dandruff, itching and all diseases of the scalp. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair, and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol and other deleterious materials, and all to no use. Hair Dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the Hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy—prevents it from falling off, as will be seen by using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear.—Growth does not take place at the end of the Hair, as will be seen in persons who have their Hair dyed. If you examine gray hair that has been colored for a week, you will find towards the roots that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root.—When this pigment or coloring matter dies out, it leaves the hair hollow and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the Hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm, will restore the skin and save the hair of those who have been sick with fever or any disease.

A CARD TO THE LADIES.

Dr. Duponca's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, the most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale by *HAZARD & CASWELL*, 12 Washington Square, and 137 Thames street. They will supply the trade at manufacturer's prices. Ladies, by enclosing $1 to *STURGIS & CO.*, Box 21, Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country. jy23—1y

THE NEW YORK RIOTS.

New York, July 15.—There were no further attempts at rioting last night in the 17th Ward. The military were under arms during the evening, but there was no occasion for their services. The Police remained in their station houses, and did not attempt to patrol the ward, fearing their presence would be the signal for a renewal of the rioting of the preceding day.

The funeral of Muller, who was killed in the riot on Sunday, took place at 4 o'clock. There was an immense attendance of Germans, and a large body of policemen were in reserve in the result of the excitement leading to a further breach of the peace.—The procession took for part of its route the Bowery, and in passing the station-house, exhibited a banner, with the words—"Killed by the Metropolitan Police!" inscribed thereon. The Germans, five abreast, and about three hundred in number, halted as they passed, and hooted and shouted at the police, but no assault was attempted.

At the indignation meeting in the evening about five thousand were present. The speakers all violently denounced the police, but advised the people to remain quiet, and to appeal to the ballot-box for redress.

THE NATIONAL TRIAL OF REAPERS AND MOWERS.

Syracuse, July 15.—The national trial of reapers and mowers was formally opened yesterday. The ceremonies included a procession, etc., and the introduction of Governors King of New York, and Morehead of Kentucky, and the various delegations to the President, speeches, &c. Twenty mowing machines were set at work for the first trial.

PORTER'S SPIRIT OF THE TIMES

General Purchasing Agency.

The constantly increasing demand upon us to execute commissions for the purchase of all kinds of articles, both for residents and non-residents of the city, has induced us to establish, in connection with our newspaper enterprise, a

Purchasing Bureau,

under the immediate supervision of one of our firm, assisted by the most accomplished experts, for supplying any article in the world.

Particular attention will be paid to the selection, purchase, and sale of thorough-bred cattle and horse stock, trained dogs, ferrets and fancy fowls, carriage, buggy, and saddle horses, carriages, harness and saddles, fine watches, every description of fire arms, sporting articles, fishing rods and tackle, music and musical instruments, yachts, sail and row boats, furniture, fine wines, liquors, and segars; cricket and ball bats, pads, &c. &c.

Agricultural Implements,

of the latest and most improved kinds; seeds, plants, fruit, forest and shade trees, and all kinds of books treating on subjects of importance to the farmer, horticulturist, and florist.

STATE ROOMS ENGAGED

in advance, on steamers and packets to leave for Europe, California, the West Indies, or any part of the world. This will obviate the necessity to residents of inland towns, and places where no steamar agencies exist, of coming to New York two or three weeks in advance—as they are now frequently required to do—either to obtain passage, or to secure eligible accommodations. In this department, we will be ready to secure

Rooms at Hotels

at favorable rates, so as to protect the stranger from imposition as well as inconvenience; and, in short, to perform any description of commission that would ordinarily require the presence of the party himself.

Gentlemen who desire to form Libraries, or who may wish to procure the

Choice Literature of the Day,

can always rely upon our judgment and selection. Also, blank books and stationery, and book and newspaper, for printers.

FOR THE LADIES,

we will procure the latest Fashion Plates, styles of bonnets, samples of the newest varieties of goods, cosmetics, perfumes, and fancy articles, and we shall always be pleased to furnish everything connected with their wants.

In short, for any service which may be required, the public may rely upon us, with the most perfect confidence, for fidelity, and dispatch. Apply to

RATHBUN'S
Ambrotype Gallery,
AT APOTHECARIES' HALL, WASHINGTON SQ.
(Near the State House.)
THE only place in the city where a good picture can be obtained. The brilliancy and strikingly life-like expression of Rathbun's Pictures, are daily recommending them to all lovers of Perfect Likenesses.— The peculiar nature of Rathbun's chemicals and superior instruments (for which he has spared no expense in selecting) are such as to render his pictures almost nature itself, and they are entirely devoid of that sickly, death-like appearance which is generally attached to Ambrotypes executed by those who do not understand or have no taste for the art. To all those who may want a good picture, whether Ambrotype or Melainotype, I would extend to them an invitation to give him a trial, and if it is not satisfactory, no charge will be made. A large assortment of every thing pertaining to the profession may be found at Rathbun's Rooms, F. H. RATHBUN,
j27 Artist.

Melainotype, Ambrotype and Photographic Gallery,
Rooms Foot of Parade, near the Fountain
THE *only place where a Photograph can be had in Newport.* Having all the new improvements in the Art, also having had a longer experience than any one else in the city in the various branches of the Art of Daguerreotype, Melainotype and Photographing, which the *pictures taken by myself* will show. Having the best and *quickest Instrument,* with all the improvements in *chemicals* that is in being at the present time. I will give you all an invitation to call and examine for yourselves, both citizens and visitors, and you will receive a hearty welcome whether in want of a likeness or not.
Perfect satisfaction warranted or no charge.

J M R, grateful for past favors, would solicit a further share of public patronage. j27

COAL.

LYKENS VALLEY COAL—The subscriber was the first to introduce Lykens Valley Coal into this market, and it has proved a good family coal. The only objection to it is the clinker and the manner in which it has been shipped for the last two or three years.— I have now to offer the Treverton coal equal in all respects, and superior, as regards both the manner of shipment and the clinker.— Certain interested parties have endeavored to coerce the dealers in this and other markets into the purchase of the L. V. coal of them, by means of advertisements headed "Caution," as though dealers who do not purchase *short mountain* (sold for Lykens Valley) of them, were palming off an inferior article upon the public. Persons unacquainted with the Treverton Coal can examine and test it with the Short Mountain (Lykens Valley) coal, at Wm G. Peckham's or on the wharf of the subscriber. WM. J. SWINBURNE,

FOR THE HAIR.

The Greatest Discovery of the Age.
PROFESSOR WOOD offers for sale a perfect HAIR RESTORATIVE. It will in a short time restore the Hair, which has become gray prematurely, to its original color —bring it out where it is gone, and arrest it when it is falling off—cleanse the head of dandruff and itchings—remove all cutaneous eruptions, and render the scalp perfectly healthy, by restoring the secretive organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots. It does not Dye the hair, but is in short a perfect Hair Invigorator and Tonic.
To the young, who so much admire the beautiful locks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is to discard all cologne and stimulating oil for the hair, and keep always upon the toilet a bottle of the Restorative for occasional use and we can safely predict, that [illegible] silver locks will be upon bald heads. Let the dark eye be ever so piercing—and the teeth be those of pearl—still, if the natural fluids be withheld from the hair, and in consequence becomes first dead and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a sovereign remedy for those who are gray as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state.
From the editor of the Real Estate Advertiser No. 2 School Street.
Boston, March 29, 1855.
Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.
Respectfully yours,
D. C. M. RUPP.
Milford, Worcester Co., Mass., Nov. 13th, 1855.
Prof. O. J. Wood—Dear Sir—I take pleasure in hearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836 my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and assured by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.
Yours, truly.
HENRY GOODRICH.
Carlyle, Ill., June 27, 1856.
I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec. 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup,* and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

LOTTERIES.

LOTTERIES.—The well known Maryland Consolidated Lotteries, of which R FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes hand. The prices of tickets vary from $1,00 to $20.—No tickets however, sent unless the monmoney for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to 1000,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address
T. HUBBARD & Co.
No. 39 Fayette st., or Box No. 40,
jy27 Baltimore Maryland.

☞ The Drawn Numbers of the Maryland Lotteries are published by the State Commissioner in the following Papers, viz. Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D. C.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner.—They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves. $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mistify the buyer. Prizes vary from $40 to $50,000; every prize being drawn and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book.—

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE MINUTES.—M. LEROUX'S French Cholera Cognac Bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.
